Wisej.NET Rapid Development Supports the Changing Needs of the Ethanol Industry

POET ethanol products

POET Ethanol Products uses Wisej.NET to support their internal, external, and plant users through different supply chain applications.

When Visual Web GUI went out of business Tim Larson and the developers at POET needed a solution to their software issues. After doing some research, they decided Wisej.NET was the way to go. With Wisej.NET as the practical solution, they found that it would allow them to meet the productivity demands of their internal and external clients throughout the supply chain.

Core Benefits of Wisej.NET

The unparalleled flexibility of Wisej.NET as a web technology has been apparent to POET as they've evaluated its capabilities. "Wisej.NET is a very flexible tool and the ability to get up to speed and produce meaningful productivity software is so much better than anything we have encountered on the market" – Tim.

Wisej.NET has simplified the integration of numerous third-party frameworks such as Syncfusion's Essential JavaScript and DevExpress' DevExtreme component libraries and offered them to Technology Partners to further fast-track their development. Something that doesn't always get the spotlight is the customer service provided by web technology companies.

Tim made sure to note his experience with Wisej.NET. "The support [of the Wisej.NET team] is second to none and we have always been taken care of". He continued, "Wisej.NET has been exceptional and they are always there to quickly help you resolve issues as they arise.".

Listening to customer's needs and working with them to find a solution to their issues allows Wisej.NET to constantly develop and become an even more robust platform for web developers.

For web developers that need to create productive software within a reasonable timeframe, Wisej.NET appears to be a winner.

"The majority of our software is written in-house to give us the ability to adapt quickly to changing markets and business requirements. Our in-house software deals with customers, plants and internal company users.".

Results Achieved

- Increased Productivity.

- Flexibility to respond quickly to market needs.

- A platform to manage all aspects of the supply chain.

- Dedicated support and implementation of requested features.

About POET Ethanol Products

POET Ethanol Products is a global leader in the energy and agricultural space, driven by responsible value creation in our industries, communities, and planet.

Our roots developed as a supplier of fuel ethanol, and have grown into a multi-commodity and transportation based company providing solutions in grains, fuels, and carbon dioxide markets.

As the largest supplier of ethanol in the world, we believe in both the value and benefits of driving a renewable solution to global energy needs, and focus on creating a better path forward in all our related industries.
